Letter of Cooperation

Dear Sirs,

JSC “Engineering and Technology “UKRENERGOCHERMET” (UECHM) is a company with 80 years history of working in the area of project development and construction. Our portfolio includes all range of projects in all kinds of industries both small and large scale (plants), feasibility studies, concept development, base and deep engineering (project designs), technical supervision, any kind of reconstruction and modernization of existing installations (with the development of operating manuals), construction of CHP plants and bioenergy objects, power and iron industry, water and waste water treatment, supplies of industrial equipment, EPC contracting.

We are interested in cooperation with your company for the following opportunities Worldwide (Ukraine, EU, Asia, any other):

- becoming a contractor for existing and new projects;
- becoming a subcontractor for your projects making part of your project as per your needs;
- management of ongoing projects (including crisis management);
- any other opportunities that may be of need to your company;

Also we are looking for an Agent partner who could present our interest in its region and will appreciate your consideration of this opportunity for our mutual benefit. As well as procurement of your hardware can be supplied for projects where you will introduce UKRENERGOCHERMET

Please send me your company investment and development plan in order we could serve your needs.

Best regards,

Andrey Yefimov

International Development Manager
